With its sleek exterior lines and its soft interior layout, the new MCY 76 project embodies the highest expression of the new models, moving towards the bigger MCY range features. The innovative elements found throughout this new yacht will offer

owners unique customization opportunities and opens possibilities for the first time available in this size category, such as a dedicated tender garage.

With its 20.11 mt of length, MCY 66 represents an authentic revolution among luxury yachts of equivalent size.
